

Overlap of Entities Among UN-SWAP, UNSDG and GEAP Task Team

The Venn diagram below illustrates the universe of entities based on their membership in various groupings and accountability frameworks. Each entity type is color-coded.

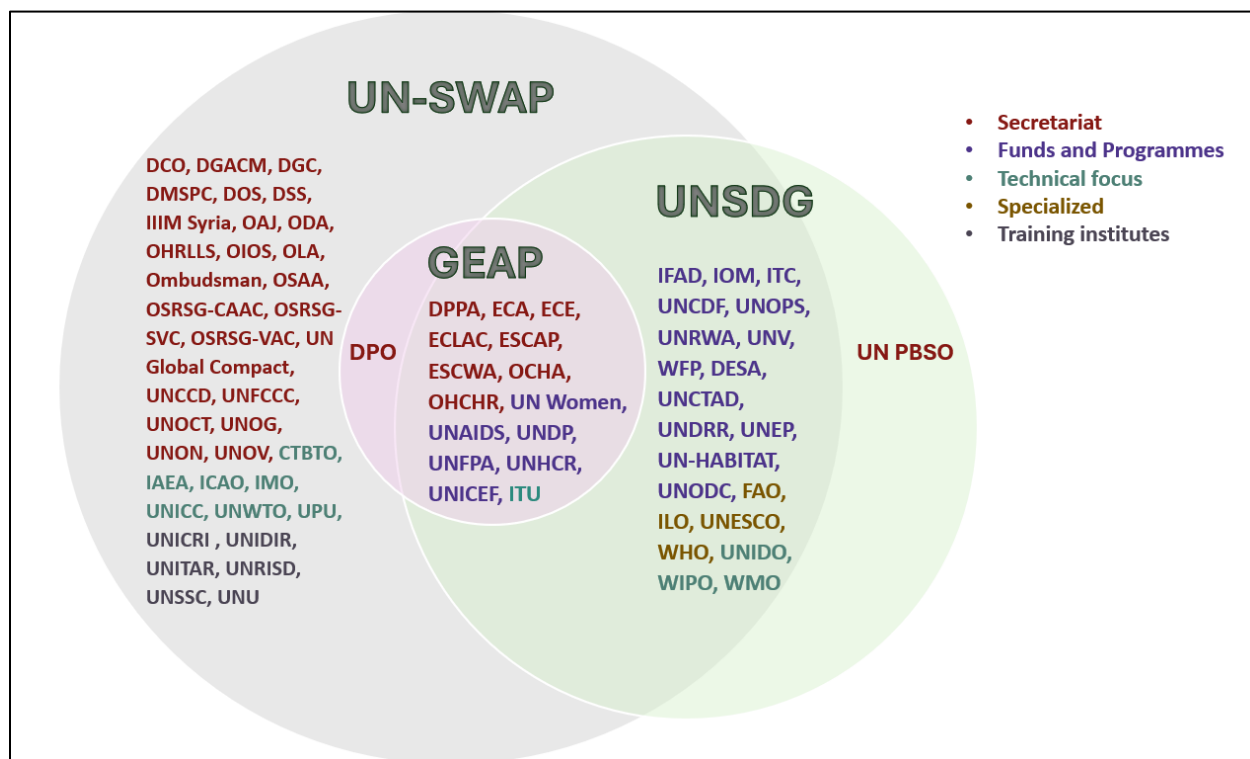

The largest grouping consists of 74 entities that report annually on the [UN-SWAP](#), the accountability framework for accelerating gender mainstreaming in the UN system. This framework equips UN entities with a set of indicators to benchmark performance and measure progress across all business areas and gender-related SDG results. Each year, the 74 entities report their progress against UN-SWAP indicators, of which the aggregated trends, gaps and recommendations will later inform the annual SG report on gender mainstreaming and contribute to the associated ECOSOC resolution.

UN-SWAP classifies the participating entities into [five broad types](#): Secretariat, Funds and Programmes, Technical Focus, Specialized, and Training and Research Institutes.

Of these 74 UN-SWAP entities, 36 are also members of the [UNSDG](#). At the global level, the UNSDG serves as a high-level forum for joint policy formation and decision-making. It guides, supports, tracks and oversees the coordination of development operations in 162 countries and territories. The Group is composed of the executive heads of [37 member entities](#).

Of these 36 UN-SWAP/UNSDG entities, 15 entities are part of the Task Team for the GEAP. The task team, represented at the director-level, deliberated over the findings of the Independent Review of the UN System's Capacity to Deliver on Gender Equality, and devised five Accelerators to ensure the universality of application. These accelerators were encapsulated in a "[United Nations System-wide Gender Equality Acceleration Plan \(GEAP\)](#)" agreed by the Advisory Group of their Principals held on 13 December 2023, chaired by the Deputy Secretary-General.
